

**Statement on Senate Action on
Economic Stabilization Legislation**

October 1, 2008

I applaud the Senate for its strong bipartisan vote in favor of the financial rescue plan. I especially appreciate the efforts of Majority Leader Harry Reid, Minority Leader Mitch McConnell, Senators Chris Dodd and Judd Gregg, and the senior members of the relevant committees from both parties. They worked across the aisle to make vital improvements to the rescue package I sent Congress last month, including an expansion of deposit insurance that will help protect the savings of American families and small businesses.

The bill the Senate passed is essential to the financial security of every American. It is aimed at helping American families who need to borrow money to buy a car or fund a college education. It is aimed at helping small businesses that depend on financing to meet their payrolls and stock their shelves. And it is aimed at helping State and local governments that rely on the credit markets to fund basic services and meet the needs of their citizens.

The House will now take up this rescue legislation. With the improvements the Senate has made, I believe members of both parties in the House can support this legislation. The American people expect, and our economy demands, that the House pass this good bill this week and send it to my desk.

NOTE: The statement referred to H.R. 1424.

**Statement on Senate Passage of
India-United States Nuclear
Cooperation and Nonproliferation
Legislation**

October 1, 2008

I congratulate the Senate on passing the United States-India Nuclear Cooperation Approval and Nonproliferation Enhancement Act, H.R. 7081. In particular, I commend the members of the Senate Foreign Relations Committee for their leadership in crafting this important bipartisan legislation. I also thank Majority Leader Reid and Mi-

nority Leader McConnell for bringing this bill to a vote prior to the Senate's adjournment. This legislation will strengthen our global nuclear nonproliferation efforts, protect the environment, create jobs, and assist India in meeting its growing energy needs in a responsible manner.

I look forward to signing this bill into law and continuing to strengthen the U.S.-India strategic partnership.

**Proclamation 8297—National Breast
Cancer Awareness Month, 2008**

October 1, 2008

*By the President of the United States
of America*

A Proclamation

During National Breast Cancer Awareness Month, we underscore our commitment to fighting and preventing this devastating disease. Breast cancer is one of the most common types of cancer among women, and we must strengthen our support of those who are living with this disease while continuing to work toward a cure.

Breast cancer can be attributed to many factors, including age, genetics, obesity, and family history. Women who exercise regularly, maintain healthy diets, and have yearly visits with their doctors are less likely to get breast cancer. Various screening measures such as mammograms, regular breast self-exams, and clinical breast exams can help detect cancer before it has a chance to spread. Early detection allows for early intervention, helps make treatment more effective, and gives hope to patients and saves lives.

America leads the world in medical research, and my Administration will continue to support efforts to treat and cure breast cancer. Since 2005, the Cancer Genome Atlas has studied the genetic sources of all types of cancer, and last year, I signed the "National Breast and Cervical Cancer Early Detection Program Reauthorization Act of 2007," which will help millions of low-income and uninsured women get the screenings they need to detect cancer early. First Lady Laura Bush has encouraged women around the world to take charge of
